

Harvista™
an AgroFresh solution

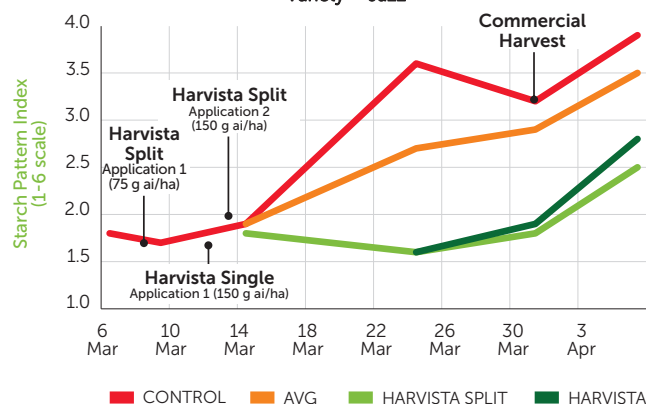

Maximise your harvest flexibility with Harvista™.

Optimise harvest management and achieve enhanced fruit quality and yield.

GAIN AN ADVANTAGE WITH HARVISTA™ SC:

- When planning your harvest, begin with an early application of Harvista to gain the greatest flexibility in extending the harvest window
- Closer to harvest, follow up as needed with an additional application to delay picking even further – without sacrificing maturity
- Surprise challenges just before crunch time? Harvista is the ideal tool to mitigate extreme weather and labour challenges, with application any time up to 3 days before harvest
